Value of Our Service & Why Recover your VAT

With VAT now collected in all European countries, it is estimated that €8b - €10b is being lost by enterprises each year that are unaware of their entitlements and often unfamiliar with international VAT/Tax regimes. Are you one of these organizations?

Despite the fact that most firms are entitled to recover Foreign VAT many don't have the time or the capacity to resource this activity sufficiently. Global Tax Reclaim Limited fills this gap by providing an outsourced VAT recovery solution.

So why reclaim your VAT entitlements and what are the benefits?

- Reduced overseas costs
- Maximized reclaimed opportunity
- No drain on your organizations resources
- Seamless, hassle-free service for processing and submitting claims
- Streamlined one-stop-shop VAT recovery solution
- End to end support throughout the VAT refund service
- Benefit of frequent cash payments to your bank account

European VAT legislation (6th, 8th & 13th VAT Directive) is framed to ensure a level playing field for all businesses. It aims to ensure that foreign businesses cannot be disadvantaged by additional VAT costs, which a local business can automatically recoup through its periodic VAT returns.

Unlike other forms of tax, VAT is charged up front on a range of essential business expenses when working overseas, and can often account for up to 25% of the overall company travel budget. Typical expenses include training courses, accommodation, meals, car hire, fuel, and promotional materials as well as supplier invoices.
