Cross Border Trading issues

Customs and International Trade Consultancy

Providing companies of all sizes with tailored customs and EU trade advice and direction to develop solutions that support efficient trade and reduce costs.

We make sense of your EU Customs Legislation obligations also Excise Duty requirements for Ireland / EU and UK Cross Border Trading issues

Now that BREXIT is a fact of life and with COVID related disruptions, it has never been more important to rely on expert EU and UK customs and trade advice that ensures you are in control of your supply chain, avoid pitfalls and minimise BREXIT effects.

Tariff Classification Services

As a business involved in cross border trade, Tariff classification is vital to determine import duty payable, prohibitions, special duty reduction program availability, free trade agreement applicability, and special permission or licencing requirements.

EU and UK Customs Duty Optimisation

If you depend on your international supply chain as part of your business, it is vital that you can identify opportunities that can reduce tax and optimise your customs duties and related costs.

Post BREXIT Solutions

If you have cross-border trade between the EU and the UK, you will undoubtedly understand the importance of securing your supply chain and limiting increased costings. It is more important than ever to develop plans and roll-out that ensures continuity of supply and cost optimisation. We can assist you from initial plans to assessing effectiveness and implementation.

Customs Audit Reviews

In the event of a future Customs Audit, it is imperative that your operation and processing are robust and comply with all necessary customs requirements. We will review all critical elements and provide you with all the information required to prevent any adverse outcomes. A Customs review will also ensure your cross border supply chains are operating efficiently and to the optimum level.

Customs Compliance Made Easy

Our Services

We provide tailored customs and EU trade service that delivers peace of mind by providing advice that promotes positive business results, address international trade barriers, and optimises costs and savings.
